

CFI - OPEN FORUM - Conducting a Risk-Based Flight Review

The risk-based flight review is a "Safety Enhancement" designed to combat Loss of Control developed by the Loss Of Control Work Group, chartered by the GAJSC (General Aviation Joint Steering Committee). It is an opportunity for education and evaluation customized to the type of flying the pilot does, the types of aircraft the pilot flies, as well as the types of airspace within which the pilot flies.

Directions: After turning into the OSU Airport driveway continue straight. Location: Hangar 3.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
